

Outdoor Playsets
BORN to SOAR

See the Cascade Series Wood Playsets

Environmentally Friendly, from the Roof to the Floor

▷ **1: Slides, Swing Seats, & Climbing Ladder Rungs made in USA.**

(See options; pages 26-27)

▷ **2: Optional Poly Slats** carry the added benefits of no splinters, no maintenance, & extra color (wood slats standard).

▷ **3: Optional Wood Roofs** are made with weather-resistant lumber. (Tarp roof standard.)

▷ **4: Bare Feet's Best Friend!**

Floorboards are a splinter-free wood alternative that is easy to maintain and does not require synthetic preservatives or coatings.

▷ **Wood products** are harvested stateside by companies who have aggressive environmental programs in place. Our treated wood uses non-ar-senic based, environmentally safe preservatives to combine the natural beauty of real wood with proven long-lasting resistance to termites and fungal decay. It can be painted or stained if desired, and will benefit from periodic water repellent coatings for best appearance.

△ 3

Benefits of Wood

Eagle Play Sets Cascade Series uses wood for most structural components. What are some benefits of using wood?

▷ Wood is Natural & Earth-Friendly

In the southern states, where the wood for the Cascade Series is harvested, tree farming is effective in preventing soil erosion. Thus, tree farming benefits our ecosystem by preserving top soil and reducing soil runoff into creeks and streams. Since wood grows naturally, it is earth-friendly.

▷ Wood is a Very Renewable Resource

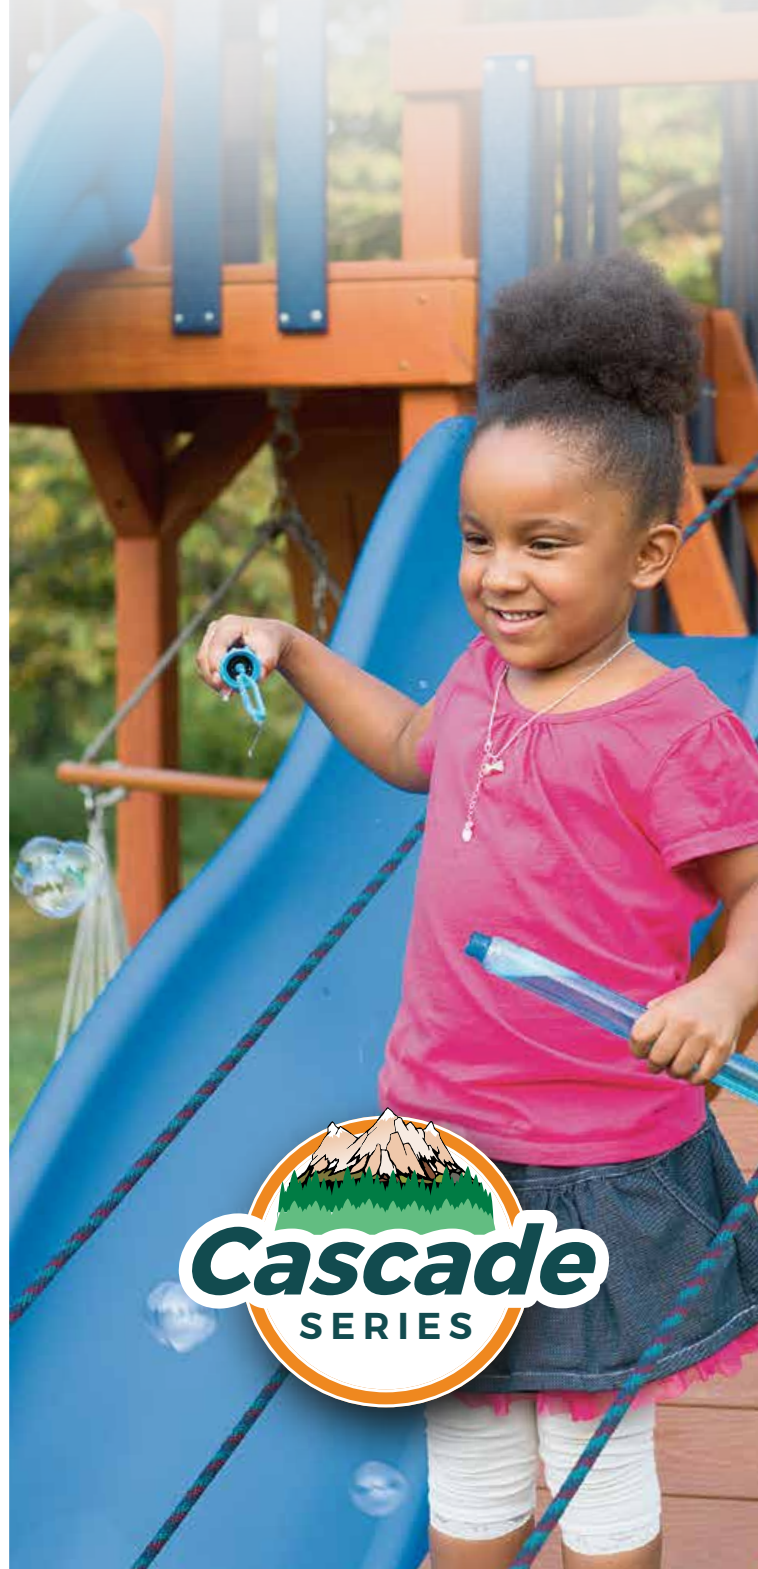

Due to improved forest management, more wood is available now than 25 years ago. As long as we have sun and rain, we will never run out of wood!

▷ Wood is User Friendly

Wood can be sanded when scratched. If necessary, wood components can be replaced and easily matched.

Cascade Series Maintenance & Use Instructions

- 1. Check that all attachments are secure** three weeks after play set is installed.
Continue to check regularly and secure as necessary thereafter.
- 2. Inspect regularly for broken or damaged pieces.**
Splintered surfaces should be sanded smooth to avoid danger of injury.
Cracks resulting from weathering are normal; pieces developing those cracks do not need to be replaced. However, pieces with structural damage DO need to be replaced promptly.
- 3. On swing sets with a tire swivel:**
The swivel should be checked and lubricated on a regular basis.
- 4. Staining Instructions:**
A quality water sealer and/or stain can be applied per owner's preference. For best results, apply sealer/stain within a month after play set installation, following instructions on product label. If your play set was purchased with a stain already applied, it should be re-sealed within 2 years with a sealer/stain of your choice. When applying follow-up treatments, always follow instructions on product label.
- 5. Children playing on play sets should be supervised by an adult at all times.**

Cascade Series 5-Year Warranty

All products are guaranteed for **five years** against defects in the manufacturer's workmanship or materials. In addition, treated wood carries its own warranty against decay and termite infestation. No other warranties of merchantability are made by the manufacturer.

The manufacturer's products are not warranted as being suitable for a particular purpose. The suitability of products is for the purchaser to determine. Adult supervision is recommended while play sets are in use.

Sets are designed to be used safely for many years. Upper grades of lumber are selected for manufacturing. Most lumber is dried after treatment and resurfaced with rounded edges for safety, comfort, and ease of maintenance. Metal parts are either rust-proof or plated to resist corrosion. The manufacturer reserves the right to make design and construction changes without notice.

Assembly instructions are included for sets requiring on-site assembly. At least 3 to 5 inches of playground mulch should be installed in play area to increase safety and enjoyment. Exterior paints or stains may be applied to any set.
