VINYL PLAY SETS 2021

THANK YOU FOR YOUR INTEREST IN ADVENTURE WORLD PLAY SETS!

Browse our catalog to find unlimited configurations, accessories and flexibility for customizing a play set that fits your family, budget and back yard.

ADVENTURE WORLD PLAY SETS MISSION STATEMENT

Our mission is to provide durable, high end play sets for our younger generation, enabling physical strength, engaged interaction, and memorable experiences.

Adventure World Play Sets promises you:

- Vinyl, maintenance-free play sets – no staining, no painting.
- No extra cost on our standard options for customization of play set structures, features and colors.
- Package choices if you prefer not to customize.
- Ability to change or adjust swings so your play set grows as your baby grows.
- Play sets made in the USA.
- An eye on the environment—poly-lumber vinyl made from recycled plastic bottles; rubber mulch and curbing made from recycled tires; a policy of recycling all waste materials for reuse rather than landfills.

We also promise you and your children a world of play set possibilities and adventures. Simply follow the 9 steps to customizing your play set or be inspired by our package options based on our most popular requests. Then contact us with your ideas or questions. We'll be happy to help you bring home a one-of-a-kind play set for your one-of-a-kind children.

Adventure World Play Sets keep kids active and healthy!

According to the Centers for Disease Control and Prevention, children should aim for one hour or more of physical activity per day. Playing on play sets gets kids' hearts pumping and strengthens muscles and bones.

Let the adventure begin!

Safety & Quality

Adventure World Play Sets are made in the USA and constructed following the highest standards. The following quality and safety features are standard at no extra cost on all of our play sets.

Vinyl covering means children can hold-tight without getting splinters!

QUALITY

- Use of pressure-treated lumber (rather than untreated wood which is susceptible to rotting in a few years) covered with vinyl combines the strength of wood with the easy care of vinyl. Vinyl covering also resists wood boring insects and bees.
- Use of heavy-duty walled vinyl adds strength, is fade resistant and is easy to clean; occasional rinsing is all you need to keep your play set looking great.
- Powder-coated brackets resist peeling and rusting.
- Stainless steel bolts and chains will not rust.
- Heavy-duty corner construction is through-bolted with two steel angles; we do not use wood lags, which connect by being driven only half way into the beams.
- Long-lasting poly-lumber roofs – instead of canvas – resist high winds.
- Durable structural parts and sturdy construction create stable play sets that won't tip in high winds or as children swing.

SAFETY

- Vinyl creates a safe, smooth surface that is splinter-free without surface cracks, checks or knotty appearance.
- Entrance ladders come standard with non-slip steps and safety rails.
- Rubber-coated swing chains provide a soft, pinch-free grip.
- Wood-grain texture on decking and rock walls increases traction.
- No shortcuts by using exposed wood on decking underside that risks splinters and cuts from cracks in wood; our play sets feature vinyl covering throughout.
- Heavy-duty swing hangers feature spring clip for easy height adjustment and swing change.
- Two ground anchors included with each swing beam.
- No overhead climbers with swings attached.

Design Your Own
Custom Play Set

ONLINE AT ADVENTUREWORLDPLAYSETS.COM

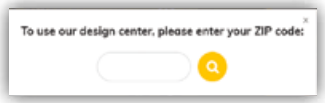

Explore our cutting-edge 3D Virtual Reality Play Set Design Center. Design your own custom vinyl play set limited only by your imagination. Start with a clubhouse tower and add swings, slides, connectors and add accessories to your heart's content. When finished, email the plans to yourself and have a local Adventure World Play Sets dealer quote it for you.

Go to Adventureworldplaysets.com

Click on the 3-D rendering of the play set in the middle of the page.

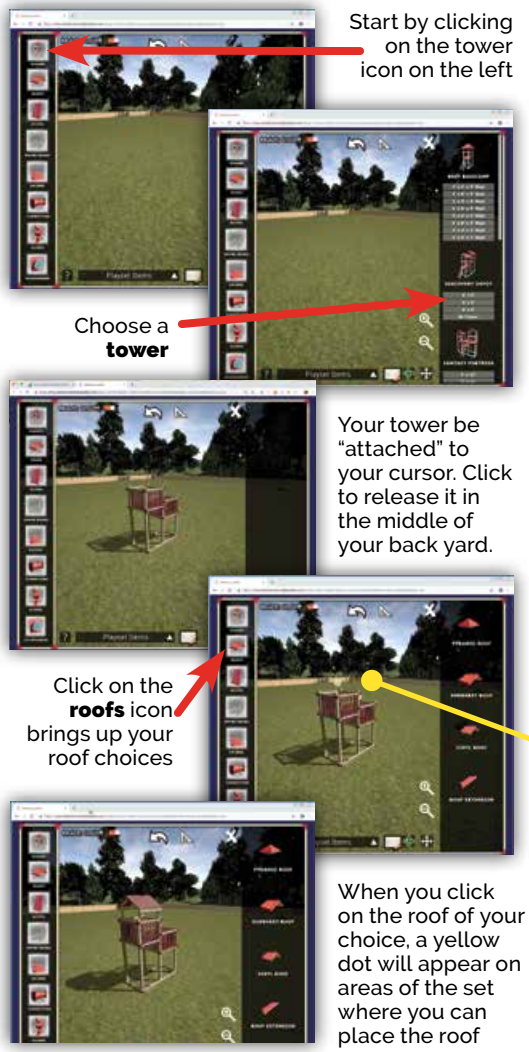

You will be prompted for your zip code.

Once you have entered your zip code, a new browser window will be launched for the 3D Design Center.

You will be presented with a blank back yard to start building your play set in!

Start by clicking on the tower icon on the left

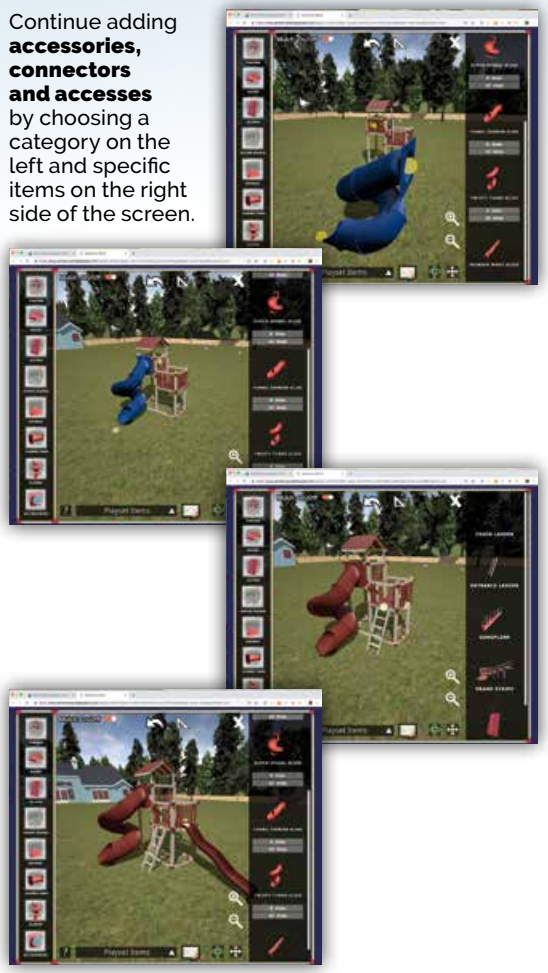

Choose a **tower**

Your tower be "attached" to your cursor. Click to release it in the middle of your back yard.

Click on the **roofs** icon brings up your roof choices

When you click on the roof of your choice, a yellow dot will appear on areas of the set where you can place the roof

Continue adding **accessories, connectors and accesses** by choosing a category on the left and specific items on the right side of the screen.

Yellow dots show where you can add a chosen item to your set

*NOTE: Interface is for visual reference only and may note be 100% accurate.

See how easy it is to design your own CUSTOM play set!

Click the swing beams icon on the left to bring up your choices for **swing beams**. Look for the yellow dots to show you where your chosen swing beam can be attached.

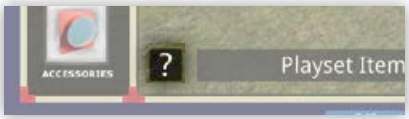

Elements on the play set can be easily rotated by selecting them and then using the **rotate tools.**

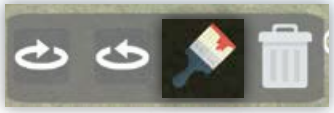

Making changes is easy. Simply choose an element you wish to remove, and click on the **trash can tool.**

Choose the **question mark** in the lower left hand corner of the interface to bring up a list of keyboard shortcuts.

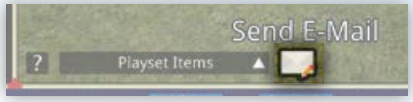

You can easily recolor any part of your play set using the **paint brush** tool. You will be shown all the different colors available to you.

Click on the **envelope icon** to email yourself a preview of your set along with the set details and even get a quote on your dream play set from a local dealer!

Before you know it, you have designed the play set of your dreams!

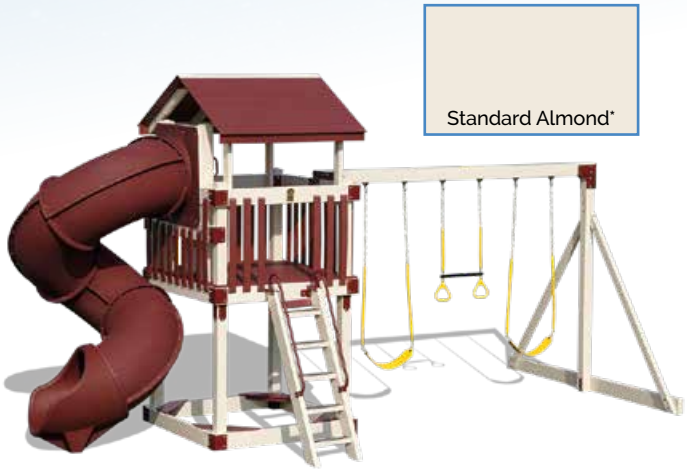

A World of Colors to Choose From!

STRUCTURAL BEAM COLORS

Follow the rainbow of color options to match any style.

Choose your structural beam color and then choose your accent color. Accent and accessory colors—including rock wall rocks—can be mixed upon request at no additional charge. Premium colors require an additional charge.

STANDARD ALMOND VINYL*

PREMIUM WHITE VINYL*

Shows dirt more easily than other colors

PREMIUM BROWN VINYL*

Wood-Grain Brown*

This premium color offers the aesthetic, natural appearance of wood, combined with the easy care of vinyl. Here's what makes this color special:

- Matching brown roof, rails, and brackets are standard
- The same durable, fade-resistant, splinter-free, maintenance-free surface as the standard vinyl
- A wood appearance that blends into natural surroundings, hides dirt and never requires staining

** You can now choose to have brown poly and brackets on other color vinyl (special order)*

ROOF, RAILING & BRACKET COLORS

Standard accent colors for roof, rails and brackets:

- Red, green, blue, and black

Standard accessory colors:

- Most swings are available in yellow, blue or green; select styles are also available in red or only green; see page 50 & 51 for details.
- Slides are available in yellow, blue or green; Ripple Rush and Extreme Ripple Rush Slides and all Tube Slides are also available in red; see page 52 & 53 for details.

STEP 2 | Choose Your Tower Roof

The big bad wolf can huff and puff, but he won't blow this roof down!

Adventure World Play Sets' long-lasting, poly-lumber roofs resist high winds and are made with recycled HDPE plastics – the kind of plastics found in milk bottles.

Roofs are available in green, red, or blue.

5'X5' PLASTIC SUNBURST ROOF

Our newest roof-style offering features elegant decorative sunburst detailing in the gable ends.

Fits 5'x5', 5'x9', & 5'x10' towers

VINYL PEAK ROOF

Roofs are available in green, red, blue, black or brown.

EXTENSION ROOF

Roof covers lower level of split tower. Add on to vinyl peak roof.

DOUBLE ROOF

A double roof is a good choice for split-level towers.

STEP 3 Choose Your Accesses

Tower accesses are available in green, red, blue or brown.

Children build balance and strength as they climb the accesses to their towers.

GANGPLANK

Can be easily exchanged with entrance ladder. 11' long

ROCK WALLS

A favorite among kids, rock walls can easily be added to any package. They are 5' or 7' long depending on deck height. Includes rope that is fastened at top and bottom for safety.

ROCK WALL

For 5' or 7' deck heights

Kids' CHOICE!

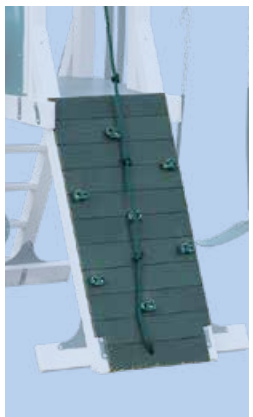

MINI ROCK WALL

A smaller rock wall, not as wide. Not available for 7' deck heights.

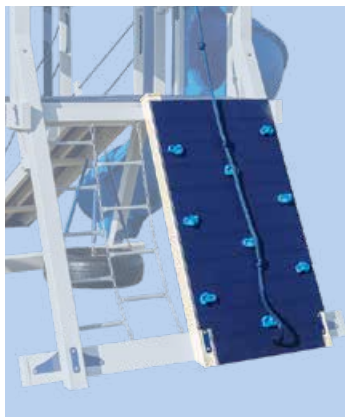

FROLIC MINI ROCK WALL

A smaller, built-in rock wall for use on Frolic Zone towers only.

ROCK WALL / CHAIN LADDER COMBINATION

For a 5' or 6' wide tower.

Rock wall rock colors of yellow, green, red or blue can be uniform or mixed.

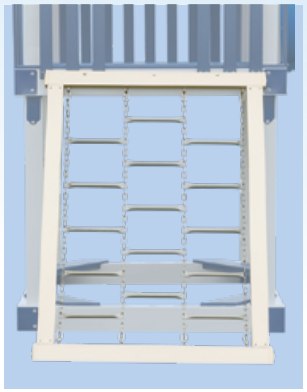

CHAIN LADDER

Fastens to play set on top and bottom only. This flexibility adds excitement as well as improves balance and strengthens muscles as kids climb.

Chain ladder available in silver only.

For the Giggle Junction Tower

For any tower with a 5' deck height and 4' or more wide

ENTRANCE LADDER

Features non-slip steps and safety rails.

Note: Frolic Zone Towers come with a built-in ladder.

GRAND STAIR CASE

Our newest access option allows children to ascend their tower in regal style.

Five platform steps with railing and landing, approximate 8.5" rise each.

Our access options add character to trigger a world of creative adventures!

STEP 4 Choose Your Connectors

If your play set has two or more towers, or you're combining two packages, you'll need a connector.

Our crawl tube or bridge options are sure to entertain.

CRAWL TUBE

6' long • Also available in 3' long and 9' long

Available in green, blue, red, or yellow.

SWING BEAM

The swing beam also serves as a connector if opting for two or more towers.

Brackets are available in green, blue, red, brown or black.

WOBBLY BRIDGE

8' long

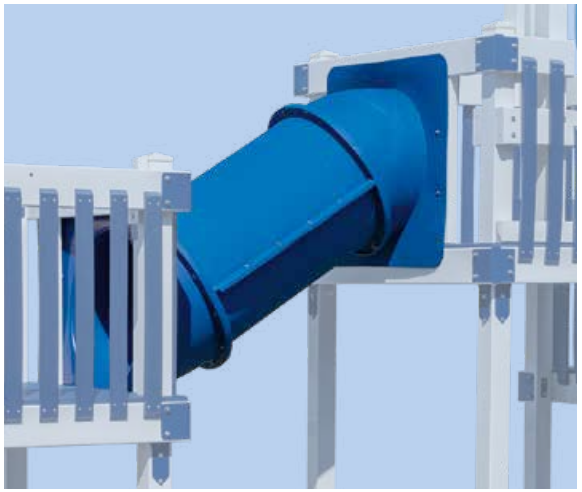

Hand rail colors available in green, blue, red, or brown.

CONNECTOR TUBE FOR TWO LEVELS

4½' long

Available in green, blue, red, or yellow.

Rubber Mulch, Mats & Curbing

See our Rubber Mulch Usage chart on the inside back cover to determine how much mulch you need!

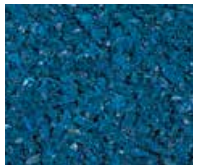

A shock-absorbing, protective surface is top on the safety checklist for home playgrounds. Adventure World Play Sets recommends installing your home playground equipment over rubber mulch to reduce the likelihood of injury from falls. Grass, dirt, carpet or thin mats are not considered protective surfaces because they lack the ability to absorb shock; concrete, asphalt or other hard surfaces are even more dangerous. Ground-level equipment – such as a sandbox – does not have an elevated play surface and therefore does not need protective surfacing.

Note: Rubber mulch, mats and curbing are not included in play set packages.

RUBBER MULCH

- Made from 100% recycled tire rubber.
- Non-toxic and meets federal flammability standards.
- Retains cushiony softness year round, and will not freeze.
- Stays in place even in windy conditions.
- Drains and dries quickly after it rains.
- Odor-free, non-staining and non-abrasive.
- Reduces dust and mud.
- Will not rot, attract insects, or promote insect breeding.

RUBBER MATS

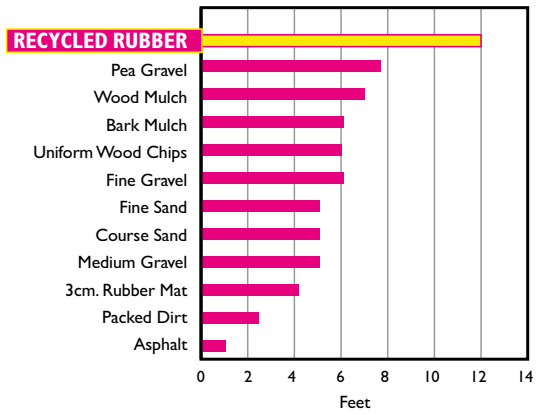

Colorful mats help minimize erosion under swings, or at the bottom of slide exits. They provide extra protection for shock absorption.

Available in green only.

Size: 23" wide x 38" long x 1½" thick with beveled edges

SHOCK ABSORPTION OF A FALL

This graph represents comparison findings of playground surface materials – including recycled rubber safety surface material identical to Rubber Playground Mulch, produced by Rubber Mulch using the same equipment and processes. Study completed using 6 inch depths (except where noted), by the Consumer Products Safety Commission and United States Testing Company, Inc.

CURBS

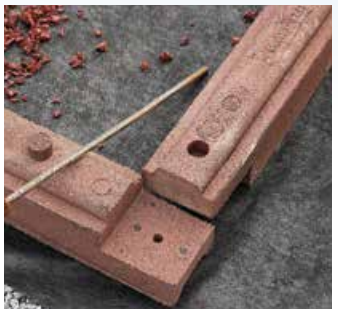

Standard Border

- 4" x 4" vinyl sleeve borders.
- Accommodates only square corners; does not allow rounded corners or curves.

Rubber Curbing

- Available in 6' lengths and 4" heights; when interlocked you will lose approximately 4" off the 6' length.
- Made from 100% recycled tire rubber.
- Allows for rounded corners and curved designs.

Our 4"x4" vinyl sleeve border helps keep rubber mulch contained in play area.

Mulch and border availability, may vary depending upon what your representative has to offer. Ask your representative for details.

Optional heavy-duty fabric base under the mulch prevents weeds and still allows drainage. Please kill weeds and grass prior to putting down fabric base.

Our Guarantee

We guarantee your children hours of entertainment and exercise from Adventure World Play Sets' unique combinations of towers, swings, slides and playful accessories. We guarantee adults peace of mind from knowing Adventure World Play Sets places priority on safety features and the highest quality materials and construction. Built to last and designed for fun with options to grow as your child grows – it's the only play set you'll ever need to buy for your children!

Warranty

Adventure World Play Sets warrants to the original owner at the installation address a Limited 20 Year Warranty covering defects in workmanship and materials affecting the structural integrity of the playground systems, such as the vinyl, poly lumber and wood components. Slides, swings and accessories are covered by a Limited 5 Year Warranty from date of original purchase.

These Limited 20 Year and Limited 5 Year Warranties apply only to products used for residential, single-family dwellings subject to ordinary use and proper installation. Any play set installed for use other than a residential, single-family dwelling will have a warranty limited to 10 years on the structural integrity of the playground systems and 2 years on slides, swings and accessories.

(See Owner's Manual for complete warranty information).

At Adventure World Play Sets, we are continuously striving to improve our play set construction and safety features, and reserve the right to change design and/or components without notice. For example, we have discontinued play sets featuring overhead climbers because safety was compromised when swings and accessories were attached.

Adult supervision is recommended when enjoying Adventure World Play Sets.

Frequently Asked Questions

Why vinyl?

Vinyl offers superior durability and safety as well as easy upkeep. Vinyl is fade resistant, splinter free, doesn't require staining or painting and resists wood boring insects and bees.

What's under the vinyl?

Our premium play sets use pressure-treated lumber covered by heavy-duty walled vinyl. This combines the strength of wood with the easy care and safe, smooth surface of vinyl.

What makes the play sets heavy-duty construction?

In addition to pressure-treated lumber under the vinyl covering, through-bolts and steel angles create heavy-duty corner and all-around construction. Metal powder-coated brackets and stainless steel bolts, screws and chains all resist peeling and rusting.

Can I customize my play set?

Yes! Packages featured in this catalog show our most popular requests, and help you to visualize tower options. You can order a featured package as is, or use packages to get ideas for your custom play set.

Can swings be switched or can we add to the set later?

As your children grow, baby swings can be switched for belt swings or other bigger-kid accessories. At a later date, you can also add swing beams or other features to build out your play set to accommodate changing needs and budget planning.

Why can't I attach swings to an overhead climber?

Swings on overhead climbers create a safety hazard. When in use, a child using the overhead climber can easily get hit by a swinging swing. When swings are not in use, children using the overhead climber risk getting tangled in the hanging swings. As a result, Adventure World Play Sets does not permit swings on overhead climbers.

Is there risk of the play set tipping over?

Our play sets are heavyweight and will not tip over in normal wind or use. Ground anchors also help secure swing beams firmly in place.

Does my yard need to be level?

Yes, your yard should be fairly level to safely accommodate a play set. You also will need to locate your play set six feet away from any structure or obstacle.

What type of surface is best for under our play set?

A shock-absorbing, protective surface, such as rubber mulch, is best for reducing the likelihood of injury from falls. Grass, dirt, carpet or thin mats lack the ability to absorb shock; concrete, asphalt and other hard surfaces are even more dangerous.

Are Adventure World Play Sets guaranteed?

Our play sets come with a Limited 20 Year Warranty covering defects in workmanship and materials. Slides, swings and accessories are covered by a Limited 5 Year Warranty.

Rubber Mulch Usage

The recommended area is the set size plus a 6 ft. zone on each side of the set. Consider adding even more space at the end of the slides.

The area needed should be clear of any other structure, swimming pools ,decks, sidewalks, fences, trees, overhead wire, or any other object that is out of the ground level.

The minimum area needed for rubber mulch is OK to be a little smaller if you keep the border at ground level.
